A226-MAIN

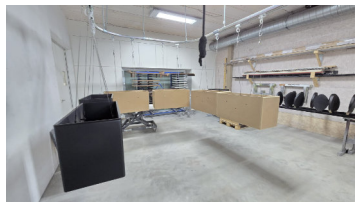

Precision & Power Redefined

From Concept to Craft: The Making of the A226-MAIN

Vision & Development

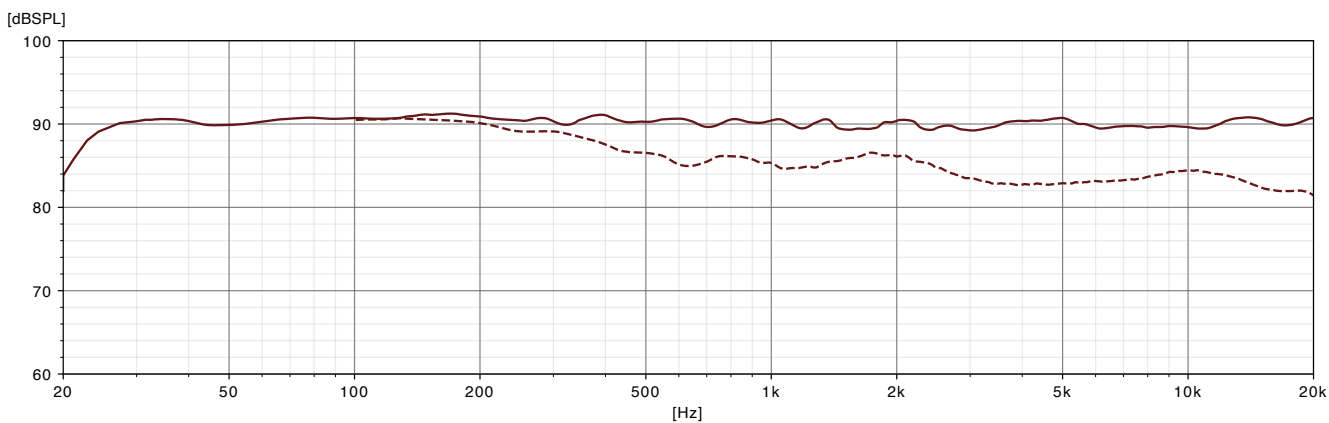

The A226-MAIN began with a bold goal: **to deliver unmatched power and clarity** in a true PSI Audio listening experience. Over 24 months, our engineers meticulously crafted every component – from custom waveguides to the new extended-range woofers – to meet this ambition.

Main Features

Frequency Range	20 Hz - 23 kHz
Max Short Peak SPL @ 1m	126 dB
SPL tolerances	±1.2 dB
Phase tolerances	± 45 (150 Hz – 20 kHz) deg
Dispersion (H x V)	80 x 30 deg
Power	500 + 150 + 65 W
System	3 ways
Crossover frequencies	450 Hz - 3'900 Hz
Dimensions	960 x 496 x 399 mm 37.8 x 19.5 x 15.7 in
Weight	80 kg 176.37 lbs

Frequency Response

Key features

- **Fully Reinforced Double MDF Enclosure** eliminates cabinet resonance for pure, uncolored sound.
- **Asymmetrical Layout** ensures optimal frequency dispersion for a perfectly balanced listening experience.
- **Symmetrical 10" Woofers** deliver tight, controlled low-end response in any room.
- **EXD (EXtended Dome) Technology** provides superior transient response and absolutely precise midrange clarity in an ultra compact baffle.
- **New Handmade Aluminium Coil Tweeter** is the most advanced tweeter for pristine high-frequency reproduction.
- **Next-Gen Class G/H Amplification** – an evolution of our 2010 design for even greater efficiency and performance.
- **Double Flow Guide Bass Reflex** achieves deep, powerful bass with zero air turbulence or unwanted noise.
- **Modular Electronics** guarantee maximum flexibility, effortless upgrades, and simplified long-term maintenance.
- **Rotatable Baffle** allows for seamlessly adapting for both horizontal and vertical placement.
- **100% Analog, Handmade & Individually Calibrated** for superior longevity and reliability for professional use.

Big Combination: A226-MAIN and A326-DREX

The SUB A326-DREX works in tandem with the A226-MAIN from PSI Audio as if they were one speaker. The Dynamic Range Extender is fully and perfectly aligned with the monitor speaker in both frequency and phase, as if both devices were just one big floorstanding or flushmounted system.

Combined with a single A326-DREX, the system gains 6dB of sound pressure in the low end, but above all exceptional dynamic transparency, clarity and power in the low frequencies. With such tight, precise bass, PSI Audio underlines on its website what it says about the A226-MAIN:

That's it. The real thing.
